Supriya Shiwakoti

Sydney, NSW | +61 469 744 886 | shiwakotisupriya63@gmail.com | linkedin.com/in/supriya-shiwakoti

Professional Summary

Software Developer with nearly 2 years of professional experience developing, maintaining, and optimising web applications and enterprise systems using PHP, Laravel, Drupal, JavaScript, SQL, and REST APIs. Experienced in backend development, relational database design, API integration, debugging, version control, and Agile software delivery. Currently pursuing a Master of Data Science at Charles Darwin University in Sydney, expanding expertise in Python, data analytics, machine learning, and statistical modelling. Member of the Australian Computer Society (ACS) with a strong foundation in software engineering and a commitment to professional ICT practice in Australia.

Technical Skills

Programming: PHP, Python, JavaScript, SQL, Java, C++, HTML5, CSS3

Frameworks & Technologies: Laravel, Drupal, React, Node.js, Express.js, CodeIgniter, Bootstrap, jQuery

Databases: MySQL, PostgreSQL, MongoDB, Oracle, Database Design, Data Modelling, Query Optimisation

Development Tools: Git, GitHub, Docker, Composer, Drush, Postman, Linux, JIRA, REST APIs

Data & Analytics: Python, Pandas, NumPy, Scikit-learn, Excel, Data Cleaning, Exploratory Data Analysis, Statistical Analysis

Software Engineering: Object-Oriented Programming, MVC Architecture, API Development, Debugging, Testing, Agile/Scrum, Version Control, SDLC

Professional Experience

Junior Web Developer Apr 2024 – Nov 2025
Anchor Points Pvt. Ltd. *Kathmandu, Nepal*

- Developed and maintained scalable web applications and B2B e-commerce functionality using PHP, Laravel, Drupal, JavaScript, and MySQL.
- Designed and maintained relational database structures supporting products, customers, orders, inventory, user accounts, and other business processes.
- Developed and integrated RESTful APIs to support communication between front-end applications, backend services, and external systems.
- Implemented and maintained secure application functionality including authentication, authorisation, validation, and role-based access controls.
- Investigated and resolved application defects, database issues, and production bugs through structured debugging and root-cause analysis.
- Improved application performance through SQL query optimisation, backend code refactoring, caching, and efficient data retrieval.
- Developed responsive user-facing functionality using JavaScript, HTML5, CSS3, Bootstrap, and modern web-development practices.
- Collaborated with developers and project stakeholders using Git-based version control and Agile development practices to deliver application enhancements and production fixes.

PHP Developer Intern Jan 2024 – Mar 2024
Anchor Points Pvt. Ltd. *Kathmandu, Nepal*

- Supported development and maintenance of PHP-based web applications while gaining practical experience with backend development, databases, version control, and software debugging.
- Assisted with feature development, bug fixing, SQL queries, application testing, and implementation of responsive web components.
- Worked alongside experienced developers to understand professional software-development workflows, coding standards, and collaborative development practices.

Selected Technical Projects

B2B E-Commerce Platform — Contributed to backend functionality, database architecture, API development, product and order management, and application maintenance for a commercial B2B e-commerce solution.
Technologies: PHP, Laravel, MySQL, JavaScript, REST APIs

Enterprise Drupal CMS — Developed and maintained Drupal functionality including content structures, modules, themes, permissions, and role-based access for web applications.
Technologies: Drupal, PHP, MySQL, Composer, Drush

Machine Learning – Breast Cancer Prediction — Developed a machine-learning focused academic project investigating data preprocessing, feature analysis, predictive modelling, and model evaluation for breast cancer prediction.
Technologies: Python, Pandas, NumPy, Scikit-learn

Education

Charles Darwin University — Sydney, NSW
Master of Data Science – In Progress — *Nov 2025 – Present*

University of Northampton (UK Degree Delivered in Nepal) — Kathmandu, Nepal
BSc (Hons) Computing – Software Engineering, First Class Honours — *Mar 2022 – Mar 2025*

Professional Membership

Australian Computer Society (ACS)

Certifications

Python Essential Training | Generative AI for Developers | Prompt Engineering | Laravel | Advanced Java
